Research group website:

Brief abstract

Provide a brief summary of the proposed project written for an audience of non-experts. This summary may be used in promotional materials. (limited to 250 words)

Description of collaboration (if applicable)

Provide a brief history of the collaboration and describe how your work is complementary. (limited to 250 words)

Description of the proposed project

Describe in detail the proposed project

Funding may be used to cover travel and meeting costs to facilitate international projects and collaboration. Funds may not be used to cover salaries or materials and long term stays of graduate students. Please include any technical information that will help scientific reviewers in your field evaluate the proposal. (limited to 1500 words)

Exchanges and activities planned, including student participation

Describe in detail the exchanges and activities planned (faculty and student exchanges, workshops, meetings) (limited to 250 words)

In this current or proposed collaboration

Describe additional activities and how they will be funded (NSF, etc.) (limited to 250 words)

Project sustainability

After MISTI seed funding, how will the project continue? (limited to 250 words)

Other Funding

Are you applying for any other seed or research funds within MIT for this project?

If yes, which one(s)? List the name of the grant/fund/program that you are applying for/applied for and the name of the agency/fund providing the funds.

Are you applying for any other seed or research funds outside MIT for this project?

If yes, which one(s)? List the name of the grant/fund/program that you are applying for/applied for and the name of the agency/fund providing the funds.
